

- ▶ The new **Condor 340c** includes the latest achievement in fishfinding technology.
- ▶ Thanks to its high sensitivity receiver, this new unit combines an amazing resolution with effective fish detection.
- ▶ The bright color screen of the **Condor 340c** with its 480 vertical pixels, provides high resolution, clear and crisp color images, with 16 bit color depth (65536 colors). Thank to TFT technology, it is perfectly viewable, even in full sun light or when wearing polarized sunglasses.
- ▶ A convenient window menu system makes using the **Condor 340c** extremely simple and intuitive, guiding the user through all the advanced functions of the unit. The convenient “-” and “+” direct access keys, allow the user to exit the auto-range mode instantly and adjust the depth range manually, without opening any menu, with only the touch of a single key.
- ▶ The hydrodynamic transom mount transducer of the **Condor 340c** has a built-in water surface temperature sensor, and provides excellent performance at all boating speeds, up to 40 knots.
- ▶ Packed in a compact housing, the **Condor 340c** easily fits on any dash board. The use of a single plug for both power and transducer means installing and removing the unit takes only a matter of seconds.

High sensitivity and astonishing resolution along with an incredibly crisp, high-definition screen of 480 vertical pixels and 65536 colors!

200 kHz transom transducer included.

The convenient menu system, with its intuitive windows-like interface, allows you to access all the advanced functions of Condor 340c easily and quickly.

The Color Line function allows you to enhance target separation and gives your relevant information about the bottom composition.

Condor 340c

200 kHz Fishfinder

► FEATURES

- Large, high contrast, 4.3" color TFT LCD screen, provides perfect visibility even with polarized sunglasses
- High resolution 480 x 272 pixel with 65.536 colors
- Operation frequency: 200 kHz
- Output power: 1600W peak (200W RMS)
- Depth capability of over 650 ft (200 meters)*
- 3 color display modes, including night view mode
- Sophisticated Fish ID recognition software with the digital readout of the depth above fish symbols
- Dual function color line, that gives relevant information about the nature of the bottom
- Image of instantaneous echo in column
- Automatic range feature with direct control and instant switch to manual
- Multiple level zoom function, allows to enlarge the image at any scale
- Alarms: shallow water, fish, low battery
- Three selectable background colors (white, blue, black)
- Hydrodynamic transom mount transducer with built in temp probe, as standard, suitable for high boating speed, cable length 20 ft (6 m)
- Memory that keeps all the settings even when the unit is switched off
- High intensity, dimmable backlighting for night use
- TCG control with high sensitivity receiver, for outstanding depth performance
- Multilingual menu system, with 21 languages
- Operation voltage: 12 V
- Dimensions: 6.3" x 6.3" x 2.6" (160 x 160 x 65 mm)

► The Condor 340c has three different alarms that instantly inform you about the fish identification, the shallow water and the battery voltage.

► The menus can be displayed in any of the 21 available languages: English, Spanish, French, German, Italian, Portuguese, Dutch, Norwegian, Swedish, Danish, Finnish, Polish, Hungarian, Russian, Turkish, Greek, etc.
